Bhavan's Faith - Kulapathi's Message

Let me once more set forth the Bhavan's faith for the benefit of new students and members for it is necessary that they should understand it clearly and imbibe its spirits.

The Bhavan stands for the reintegration of Indian Culture. In the world falling to pieces under the impact of an amoral technological avalanche, it tries to hold fast to the fundamental values, for which our culture stands - *RITA*, *SATYA*, *YAGNA* and *TAPAS*.

FAITH in God who forms the cosmic order; *TRUTH* which is the accord between mind, word and deed; *DEDICATION* which offers all movement of life as an offering to God; *SUBLIMATION* which purifies the body and mind and transmutes instincts, passions and emotions into things of beauty. This regardless of forms and doctrines, is *DHARMA*, the three fold aspects of which are - *SATYAM*, *SHIVAM* and *SUNDARAM* - Truth, Love and Beauty.

For these values our forefathers lived and died. So did Sri Ramakrishna Paramahansa, Swami Dayananda, Swami Vivekananda, Mahatma Gandhiji and Sri Aurobindo, among the moderns.

Those values are embedded in our national outlook. We command the respect because of them.

We can look forward to the future with confidence only because they have the vitality, which gives the power to vindicate their validity even in this fear and avarice-ridden age of ours.

We, the Bhavan's Family, whether it is the smaller one or the larger one, must make every effort in restoring an awareness of these values in personal and collective life.

Kulapathi Dr. K.M. Munshi
Founder, Bharatiya Vidya Bhavan

“ Thus Bhavan's programmes cover “all aspects of life from cradle to the grave and beyond... it fills a growing vacuum in modern life” as Pandit Jawaharlal Nehru observed when he first visited the Bhavan in 1950. ”

Bhavan over the Years

Founded on November, 7, 1938, Bharatiya Vidya Bhavan has grown from small beginnings, into an all India intellectual, cultural and educational movement. True to its goal of revitalizing Dharma or the Moral Order in its three fold forms of Truth, Love and Beauty (*Sathyam*, *Shivam* and *Sundaram*), the Bhavan is ceaselessly striving to carry forward India's ageless message of Faith, Self-Discipline and Dedication (*Shraddha*, *Samyama* and *Samarpana*).

Dr. K.M. Munshi, the founder of Bharatiya Vidya Bhavan, was a practical idealist. His was a many faceted personality. Lawyer, Author, Constitution-maker, Statesman, Social Reformer, he was above all one who persistently strove for cultural and spiritual regeneration.

Over half a century of its life, the Bhavan has been steadfastly endeavouring to hold fast to the fundamental values of life and has been fostering these values, reintegrating them with new

elements suited to modern situations. This is being accomplished through its 375-Plus constituent institutions and departments, through its centres spread all over India and abroad that exceed a hundred. Its publications in pursuit of this goal has crossed over 1800 in number with a collective sales of over 30 million copies. Through its periodical journals in different languages, through its Sanskrit and Gita examinations for which over 40,000 students appear every year, Bhavan has been pursuing its goals.

Bhavan, through its various schools and colleges - kindergarten to Post Graduate and Research levels - that are spread across the nation imparts education in streams ranging from Sanskrit, Indology, Indian Culture, Indian Classical Music, Dance, Drama, Yoga, Classical Languages and Ancient Scriptures to Arts, Science, Commerce, Engineering, Modern Management, Mass Communication, Information Technology and Foreign Languages such as French, Spanish, Russian, German and Japanese.

The main purpose of Bharatiya Vidya Bhavan is to provide a modern bridge to span the past, the present and the future, built on the strong foundation of the fundamental values of life.

The Bhavan has set up centres in London, New York, Lisbon, Mexico city and Durban. Plans are afoot to start centres in Geneva, Singapore and Tokyo.

Corporatisation of Management Education *a unique feature at Bhavans*

With the changing world order set rolling by the shrinking globe, management education is becoming more and more complex and exciting. Added to this is the high level of expectation of the corporate bodies who look to business schools to train and create managers of high competence.

Bharatiya Vidya Bhavan realizes this imminent need and has taken up the initiative of grooming world-class managers through its chain of Institutes of Management. The impetus for this initiative comes from the extensive corporate management experience that the Bhavan is privileged with, through the eminent men who are part of it at the helm of its affairs. With decades of varied managerial experiences, including heading large public and private sector corporations, they bring with them an urge that drives the academics.

Bhavan's management education is different. Its strength is its linkages with the corporate world. Experience is its resource.

Commitment to groom youth is its strong point. Creating the infrastructure is its forte.

At Bhavan's Institute of Management, the students are rigorously exposed to real-time management issues through case studies, guest lectures, problem solving and role plays. Students have regular interactions with guest faculty drawn from corporates and industry, weekly programmes on Business Leadership, regular learning experiences through industry visits, research and project work, participation in workshops and seminars on management, training at professional bodies, etc. A strategically planned outbound training programme inculcates in students skills of team work, crisis management, intuitive thinking, and hardens them for the tough life in their managerial careers.

Altogether, the Bhavan's management education will ensure that students leave its portals not just with a certificate but will be competent, capable and confident to face the corporate challenges of modern times.
